

## Your Partner. Your Solution.

Hello,

We hope you enjoyed the **Beyond Big Data** event last week! As a proud sponsor, DQE was delighted to connect with so many engaged attendees looking to leverage data analytics, artificial intelligence, and machine learning to elevate their business.

Businesses are harnessing the knowledge gleaned from big data to know more about customers, automate work processes, predict future events, enhance personalization, and streamline systems. In the near future, AI and machine learning will continue to change the ways businesses interact with their customers and teams.

And what is needed to capture and process all this big data? **A fiber optic network with secure, reliable, and fast bandwidth options.**

That's where your business can depend on DQE, a 100% fiber-optic network data connectivity provider. DQE offers a full suite of [fiber-based solutions](#) that possess the fastest data speeds possible, the highest level of service reliability, and the most dependable support.

**Schedule a call to discuss how your  
business can leverage the power of fiber optics.**
