DQE COMMUNICATIONS ANNOUNCES RESIDENTIAL PRODUCT

Focusing On Underdeveloped and Underserved Areas

PITTSBURGH – August 8, 2022 – DQE Communications launches new product, Fiber@Home, which will provide 100% fiber-optic Internet to limited residential areas. DQE focuses on offering Fiber@Home to underdeveloped and underserved rural areas lacking broadband.

DQE's fiber-optic network is built, owned, and operated by the company as an investment in the communities they serve. Several miles of the company's backbone fiber currently reside in largely rural neighborhoods allowing DQE to easily offer their high-speed Fiber@Home product. The product is now available in Sharon, Hermitage, and Sharpsville, Pennsylvania, with additional areas being ready soon.

"With over 25 years as a fiber-optic Internet access provider delivering customer-focused solutions for businesses, we are thrilled to bring our expertise and high-quality service to the residential market," said Jim Morozzi, DQE President and CEO. "Especially to the communities that are in need of Internet services."

DQE Fiber@Home offers three Internet plans with different speed options depending on household needs. All Internet plans include:

- Symmetrical upload and download speeds
- No data caps
- FREE Optical Network Terminal (ONT) with Wi-Fi
- Simple, app-based setup and management controls
- Free Professional Installation
- No term contracts
- No termination fees
- 24/7 Local Network Support
